Speaking Pre-Test Feedback

You have a very strong set of language skills in general. You develop your ideas fully in conversation, including an appropriate amount of detail in your responses and transitioning smoothly between topics. You contribute effectively to conversation, and your speech is well-organized. You generally maintain a natural pace, although at times with some hesitation. Moving forward, we can work on reaching an even smoother speech flow, but you're at a strong place already.

Your vocabulary range is especially impressive. You consistently make precise word choices, considering context and the "best possible choice" when multiple options could work in a given setting. You use the language flexibly and use figurative language and phrasal verbs effectively.

Your grammatical range is also very strong. You use a variety of sentences structures, which makes your speech engaging, and you maintain a high level of accuracy at the same time. You occasionally made small mistakes related to things like prepositions ("People tend to look mostly ON the salary" instead of, "People tend to look mostly AT the salary,") but this never impacted communication.

Your pronunciation is clear and easy to understand. You have a good command of most individual sounds in English. There are a few sounds we can work on polishing even more – the /ʊ/ vowel (which you pronounced more like /u/ in words like "good" and "look") and the /oʊ/ diphthong (which you pronounced more like /ɑ/ in words like "known.") Another part of pronunciation that we can work on is word stress. At times, you misplaced the stressed syllable – for example, in the word "programming" you stressed the second syllable, "gram" instead of the first syllable, "pro." You used a mix of stress-timed (typical of English) and syllable-timed (typical of Brazilian Portuguese) rhythm patterns. Since you're at an advanced level already, I think we can work on moving towards more of a consistent stress-timed rhythm pattern. You have a great command of a variety of intonation patterns and use variations to communicate specific meaning. At times, you overused rising intonation, so we can work on polishing that a bit more.

Overall, you have a very impressive set of skills! It will be great to work with you in this course. 😊

Very impressive writing skills! You have a powerful "voice" that comes through clearly in your writing. You consistently make precise word choices and use some expressions and phrasal verbs naturally as well. You use a wide variety of sentences structures while maintaining a high level of accuracy. You use English flexibly and use figurative language effectively to communicate your ideas. You provide examples to support your ideas and organize them clearly into defined introduction, body, and conclusion paragraphs, using a logical sequence that is easy to follow. Moving forward, we can work on even more variation and expanding your vocabulary even more (as it's an area that we can always grow in, but you're already at an impressive level.) Overall, excellent!
